RESEARCH PANEL CHAIR

TBA

January 29, 2005
Updated March 8, 2005

Dear colleague,

Please find enclosed the membership form for 2005 ICKL membership. For those of you planning to attend the forthcoming conference, if it is easier for you to make one payment, you also have the opportunity to pay your conference registration fees, along with your dues.

At the last conference in Beijing it was decided for the conference in London to issue a call for papers with a much wider scope than usual. It included the many Laban-based systems, not only Kinetography Laban/Labanotation, but also Motif Description, Laban Movement Analysis, Choreutics and Dynamics.

Response to the call for papers and workshops was tremendous, and we received many more proposals than usual. **Consequently, we have extended the conference for one more day. Arrival day will remain the same, July 29th, but the sessions will end on August 4th, and departure day will be August 5th.** Conference fees will not change.

We hope you will be able to adapt your summer schedule to stay for the whole conference period. In light of the many diverse proposals received from many fields and many people around the world, this conference will provide a fertile and unique platform for exchange amongst the Laban notation system practitioners and the other Laban-systems practitioners.

We are also enclosing the information sheet containing important information on the conference organization. Please note that the web site will be regularly updated with more information. By mid-February you will find a list of papers and workshops to be presented this summer.

Enclosed are two membership forms, depending on the currency you will use (US dollars or Euros). Please read carefully all information and instructions, and send one form or the other to the appropriate Treasurer. Valarie Mockabee, USA, who is acting as Treasurer this year, should receive all payment in US Dollars. Assistant-Treasurer Agusti Ros, Spain/Europe, should receive all payment in Euros.

Please return the membership form at your earliest convenience, preferably before the end of February.
